

Community Service Projects

Almost every participant in our Court Diversion program is required to complete a certain number of community service hours. We are always on the lookout for meaningful community service opportunities. These can range anywhere from cleaning up an elderly persons yard to helping out at a triathlon to collecting food items for donation. If you have a project that you could use some extra help with, or know of someone in need of some assistance, please contact our office at 603-527-5493.

Meaningful community service:

- Is restorative to the victim and or the community
- Allows the juvenile to have a positive interaction with his or her community
- Teaches the juvenile a new skill
- Builds a positive relationship with an adult
